

VETTED ALPR MOBILE KIT

A VETTED ALPR MOBILE KIT MAKES IT EASY TO EMPLOY ADVANCED ALPR TECHNOLOGY ON ANY MISSION AND IN ANY VEHICLE.

Vetted's ALPR Mobile Kit brings together the ideal balance of the most cutting-edge ALPR technology and true functionality available.

Systems with up to four, dual-lens ALPR cameras featuring advanced imaging and recognition algorithms to provide real-time, accurate license plate reads. The cameras can be temporarily or permanently mounted making the kits ideal for unmarked and standard patrol vehicles alike. Connect directly with the vehicle MDT or choose the tablet powered system for use in any vehicle. The user-friendly Vigilant LEARN interface provides user-focused functionality alongside advanced search and alerting capabilities giving officers actionable intelligence.

Options to Meet Your Needs

Designed to meet your operational needs, kits are available with up to four ALPR cameras with temporary or permanent mounts. Choose a system with included tablet processor for portability and use in unmarked vehicles.

Advanced ALPR

Powered by industry-leading Vigilant technology, the dual-lens camera will capture and accurately read plates at high speeds, day or night, and in all weather conditions.

Ready to Deploy

Designed for quick deployment, these kits can quickly and easily be transferred from one vehicle to another and provide everything you need for vehicle patrols including a power inverter adapter, dual cooling fans and onboard processor.
